Returning civilian students can register by eLion or by e-mailing [jack.nussen@saintleo.edu](mailto:jack.nussen@saintleo.edu).

New civilian students can register by calling 766-1812/1814 for an appointment.

#### **Course Descriptions\*:**

**HTY-121:** A survey of the principal movements, events, ideas and personalities in U.S. history from colonial times to the Civil War. Offered annually.

**SCI-102:** This course is the first of two science courses required of all non-science majors. This course is designed to introduce students to the concepts and practical applications of the physical sciences so that the student will become an informed citizen in an increasingly science and technology based society. Specific themes focused on will include the scientific method, history of science, thermodynamics, electricity, waves, atomic structure, nuclear energy, relativity and the formation of the earth and universe. There will be several demonstrations and/or student experiments during the semester. Ethical and moral considerations will be discussed where appropriate. This course requires substantial writing and reading.

**MGT-301:** An introductory course in management as a discipline and a process. Major topics include the evolution and scope of management, decision-making, planning and strategy, organizing and staffing, leading and control and change. The importance of management in the global environment and ethical considerations of management decisions also are included.

**PSY-228:** A study of the perceptions, attitudes, personality, motivations and behavior of the individual as a function of social situations. Emphasis on theory, research and application. Offered annually.

**SSC-101:** An interdisciplinary course designed to provide students with the opportunity to consider the many ways in which human beings function as individuals, as members of larger groups and demographic segments and as members of a particular culture. This course explores the disciplines of sociology, psychology and anthropology within the framework of the scientific method, social constructivism, ethics and values. Value systems, including the core values of Saint Leo University, and the ways in which they affect social structure are also explored.

#### **Directions to Classroom:**

1. Enter Bldg. 82 through the back door entrance (faces the moat, has a loading dock and a sign saying USO).
2. Take the first stairwell to the left to the second floor.
3. Once out of the stairwell, take the first hallway to the left.
4. Classroom 265 is the first classroom on the right.

\* Taken from the Saint Leo University 2005-2006 Catalog.
